KEHL WINDOWS AND DOORS

**WHEN YOU BUY FROM KEHL, YOU BUY
DIRECT FROM THE FACTORY**

**Manufacturers of All
Season Window Systems**

The really **important** things

At Kehl, we look at windows and doors differently. They are not just products to us because they are an important part of your home and your life. Windows bring the beauty of nature in while protecting your home from the elements, yet keeping you engaged and in-tune with the world surrounding you. We work hard to make sure that life always looks good through each and every Kehl window and door.

**“I HAVE NEVER SEEN SUCH A HARD WORKING
AND WELL ORGANIZED STAFF THAT REALLY HAS A
PASSION FOR OLD FASHION QUALITY”**

- Dan and Arlene - Tecumseh

Kehl windows & doors

A choice you can feel **comfortable** about

All Companies advertise that they have the best products and service. Kehl demonstrates our superior windows, doors and service by providing our customers with outstanding quality, certified installation and professional customer service. We put our 25+ years of construction knowledge to work in order to evolve our products and services every day. At Kehl, we don't see your project as just any job; we treat your home improvements as if they were our own!

The Management Team

Our team is committed to overseeing every aspect and detail of your project by instilling quality values and practices right from the start. It is this dedication and involvement that enables us to achieve our high rating.

Built just for **you**

Right in **your** backyard

Despite the fact that Kehl is one of the largest local manufacturers in this area, we do very little advertising – and that isn't by accident! Most of our business comes through referrals from friends, family and neighbours of happy, returning, satisfied customers that are eager to recommend Kehl Window and Door. It is one thing to be satisfied yet it is another to want to recommend us to the people you care about the most. We take great pride in how our business has grown over the years due to a huge network of returning customers.

Our local manufacturing makes it possible for us to ensure that you are receiving the highest quality product and to provide you with the best possible service. Our windows and insulated glass are manufactured in-house by dedicated staff who really know their professions and are committed to upholding our high standards. We have made a commitment to put our resources toward building a high energy efficient product and the ability to display the Energy Star label, for all of North America, confirms our success. Our manufacturing process is inspected and audited four times a year in order for us to keep our Energy Star rating.

**“I JUST LOVE THE FACT THAT EVERYTHING WAS
MANUFACTURED AND INSTALLED LOCALLY”**

- Joe & Kathy - Walkerville

Sun. Rain. Sleet. Snow.

Our service holds up just as well as our windows

Your home is intimately yours. It is one thing to welcome friends and family over, but allowing installers to enter your home usually brings a little anxiety. At Kehl, we understand this and work hard to prevent any uneasiness.

All installations by Kehl demonstrate our commitment to completing the work right the first time, with as little disruption to you as possible. While other companies may make this claim, we

back it up by sending a Master Carpenter to your home to oversee the job. Our installation teams take pride in their craft and as our clients confirm, the installers are reliable, provide excellent care, and follow through on their word. Most importantly, we are here to accommodate your schedule, not the other way around.

“WE SHOPPED A LOT OF WINDOW COMPANIES. KEHL WINDOW & DOOR GAVE US THE MOST PEACE OF MIND, NOT ONLY WITH THE PRODUCT, BUT WITH SERVICE AND INSTALLATION”

Bob & Julia, Amherstburg

The Kehl Difference

There is no comparison

Not only are our parts sourced in North America, our windows are custom crafted in our Harrow, Ontario facility. Our profiles are extruded from only virgin PVC – never from regrinds. We have one of the heaviest profiles in the business, eliminating the need for steel support channels, which can cause heat and cold to transfer through the window. Kehl also offers U-core plus insulation for a higher energy rating. All of our welds are of Fusion Technology, supported with the heaviest wall thickness in the business.

Exclusive to Kehl is our new Euro style hardware – its sleek, fashionable, ultra-modern design will enhance your home décor.

We provide our customers with the best window available. Using the latest upgrades in extrusion, the U-core plus insulation technology and exclusive Euro style hardware, Kehl has received the most efficient window rating by Energy Star Canada for the last five years!

Richard Kehl, President of Kehl Window and Door, is a licensed and certified manufacturer and installer of window and door products. Mr. Kehl brings over 30 years of installation and 20 years of manufacturing experience. His recent design of the ALL SEASON PREMIUM and the Thermax XL™ glass system has earned Energy Star's most efficient product designation for 2019.

In-house insulated glass line

To give you the best customer service

When you choose Kehl Window and Door, it is just the beginning of beautiful things to come. Stunning views, clearer inspirations, new reasons to get together, increased home value, decreased heating bills, less drafts, more compliments, beautiful curb appeal.

A large part of our success has been the inception of our Thermax XL™ insulated glass line which is built on the Super Spacer® non-metal spacer platform. Combine this with special LowE glass and inert gases, this has propelled Kehl products to the “most efficient” list for Energy Star Canada five years in a row.

In-house is key. Kehl Window and Door is the only non-metal glass manufacturer in the area, so if your glass breaks, we have you covered with our all-inclusive glass breakage warranty. How can we do this? We manufacture it in-house!

From our standard high energy glass to our specialty glass, it is all under one roof. Check for our gold seal certification on each window.

Out performing the competition: The THERMAX XL™ Spacer System

A Quieter Home

Our durable Super Spacer™ platform THERMAX™ acrylic bond can help to reduce outside noises such as wind and traffic by 25%.

Healthier Living

Thermax XL™ Spacer System quickly absorbs moisture and reduces condensation, reducing the growth of mold, mildew, fungi and mites that cause respiratory infections, allergies and asthma.

Reduces Heat Loss

Metal spacers can absorb heat and allow it to escape. The Thermax XL™ spacer systems polymer blocks the heat escape path and provides the best thermal performances in the industry.

The Style. The Selection.

The highest standards

The greatest thing about buying windows from Kehl is the variety you will have and the knowledge you will receive. We know exactly what style of window is best for each room because we manufacture and install the windows we sell.

Whether you are looking for the elegance of a bay or bow window, the versatility of a single or double hung window or the unique ventilation of a tilt and turn, we have the window that is right for your requirements and your home.

Kehl Windows

Beautiful on the inside and out

The phrase “seeing is believing” has never been more accurate than when you buy from Kehl. When it comes to knowing exactly how Kehl windows can enhance your home or change a room, you have to see it for yourself! Our customers are always excited and proud to show off their Kehl windows.

Kehl Doors

It's all about first impressions

Your front door is the focal point of your home and delivers the curb appeal you strive for; it makes that all important first impression and is the backdrop for your first-day-of-school, first date and prom pictures. It also serves as your homes

first line of defense against intruders. That is why Kehl doors are more than just front doors – they are unique and strong, with looks that will last a very long time!

Making **your own** statement

Has never been easier than 1, 2, 3!

1 Select a door panel & colour

The materials, the colour, and the style. It is all your own choice. Select from smooth skin HD steel, dent resistant fiberglass that looks like real wood, and more. Choose your colour from a variety of palettes.

2 Choose the glass

At Kehl, the combinations are endless! No matter what style you select, traditional grill, tilt & lift, mini blinds, art glass or wrought iron – you can't go wrong. All of our decorative glass captures light and beautifully diffuses it into your home.

3 Decide on Hardware

Hardware is just as important as any other decisions you make about your door because it accessorizes! Add the finishing touches with matching hardware that suits your personality. Not sure what to select? Ask us – we are the door décor experts.

Our manufacturing process

Where craftsmanship meets thoroughness

Kehl makes buying windows and doors as stress free as possible. It begins with the initial contact. Our professional window and door associates will set up an appointment at your convenience to visit you at your home in order to measure and provide you with the most accurate computerized quote. Once your order is placed, we verify your measurements and send the order off to production.

Once in production, your window frames are cut to the correct dimensions, hardware is fitted and glass is placed. A quality inspection is carried out to ensure your window is in excellent working order as per the Energy Star Canada guidelines. Kehl's installation team will then contact you to set up a

date to have your windows and doors installed. On site, prior to taking out the old windows and doors, our qualified installers verify measurements for size and accuracy, then install your complete order according to CSA fenestration installation guidelines.

When the installation is complete, our Sales Associate inspects the windows and doors and ensures that you are completely satisfied with your new windows and doors. Your warranty card and final paperwork is handed over to you and we leave you knowing that you made the right choice in choosing Kehl Window and Door.

The Warranty

Manufacturer's Warranty

We are proud to say that when you purchase from Kehl Window and Door, you get the most comprehensive warranty available in our industry. It is important that our customers have peace of mind with their purchase from us. Our lifetime warranty covers all labour and materials needed to repair or replace any item on the vinyl windows we installed at no cost to the home owner.

This warranty is good for as long as you own your home, so when you buy windows and doors direct from us, you will never have to buy them again. When you buy from Kehl, you get a Manufacturer's Warranty – now that is peace of mind!

When you buy from Kehl, you buy direct from the factory!

Our Warranty:

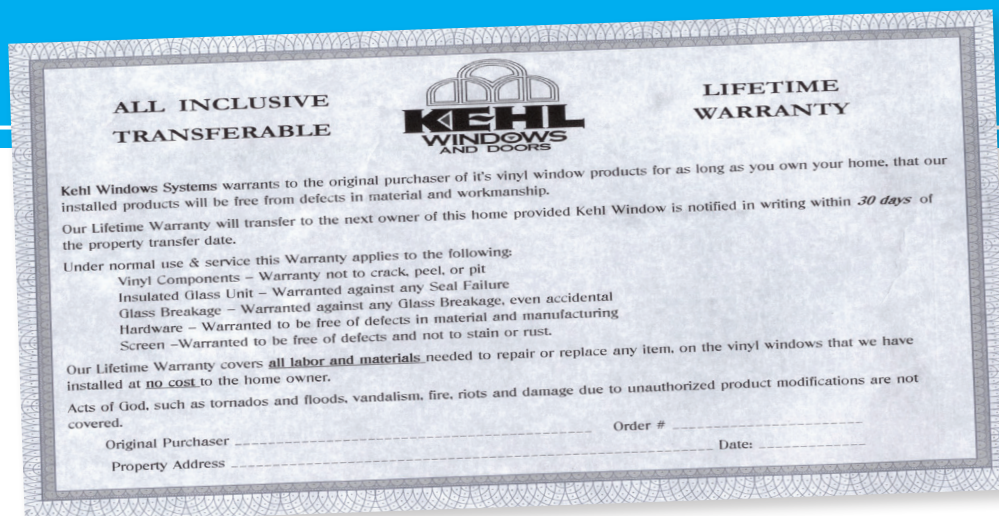

Never expires and will remain valid for as long as you own your home.

If you sell your home within 20 years of purchasing our products, your Kehl Window and Door Warranty is transferable to the new homeowners.

Always includes parts and labour, so there are no hidden fees.

No exclusions. Simple and easy. If we sold it or installed it, it is covered.

No pro-rated terms. Our warranty will remain the same, no matter how many years down the road you call us for service, even on glass breakage.

Proud to be chosen as window designer, manufacturer, & installer for Essex Golf & Country Club
